#### **Fall Field Permits**

David Fox and Lona Valmoro discussed the current field permit situation. DPR will accept applications for fall field permits on October 1. The permits will cover October 13 through November 21. No information has been provided about whether there will be caps on the number of people who can be on the field at one time or whether games/scrimmages will be permitted. In addition, no information was available about when the permit recipients would be announced by DPR.

DGS will not be issuing permits for school fields at this time. It is unclear whether we will be able to get any permits at the RFK fields as the league gave up its provisional permits when it decided to cancel the fall season.

Families would not be charged for fall season activities. There would still need to be some kind of registration process, though. This might be done through Sports Connect. The board discussed concerns about not being able to provide every interested player with a spot for fall ball and making sure that scholarship players had opportunities to register. The board also discussed whether permit fees would be refunded if the city chose to pull them back in response to changes in the coronavirus situation in the city.

A motion was made to apply for DPR field permits and then determine how to implement fall activities for baseball and softball. The motion was approved by voice vote with one abstention.

Following the vote, the board agree to put together a committee of board members to develop a plan for implementing fall baseball/softball activities.

**Next Meeting**

The next board meeting will be on Monday, October 5 at 6:30 pm, unless the board needs to convene earlier, and will be conducted by video.

There being no further business the meeting adjourned at 8:25 AM EDT.
